

INNER FACE OF REALITY-II

MANASVINI GUPTA

Manasvini Gupta is an artist based in Lucknow, India. Her style is primarily influenced by darker, more macabre ideas and concepts. An avid fan of classic horror, her love for the genre shows through in her work. She harbours a fascination for faces and people, which tend to be the main subjects in her art.

This collection is an exploration into how different aspects of human temperament can be made apparent through art. It is a study into how a simple combination of strokes and lines on paper can compel one to recognise certain emotions and bring forth a reaction from the viewer.

I'm Watching
